RE: TEMP-COAT 101 Use in the Brewery Industry

TEMP-COAT 101 is a liquid ceramic insulation capable of insulating surfaces between the range of -80F(-61C) to +350F(177C) (With capabilities of higher temperatures) with a guarantee that it will insulate and adhere to the surface it insulates. The thickness of the material is the control factor as to what temperatures the product can control. TEMP-COAT may be applied to a wide range of substrates including carbon steel, stainless steel, concrete, fiberglass and wood to name a few.

TEMP-COAT 101 is approved by over 100 of the Fortune 500 manufacturers and many of their suppliers in the US. TEMP-COAT has carried approval from the US Navy, US Coast Guard and Lloyd's Register going back as far as 1996.

In the brewing industry, TEMP-COAT 101 has been utilized to insulate a vast variety of systems including hot and cold operating piping systems as well as tanks for storage to maintain an appropriate temperature.

Our client list includes:

Miller Coors	Golden, Colorado Fort Worth, Texas Albany, Georgia
